

Environment and Ecology Services

AVOVE[®]

UTILITIES

MOVING LIFE FORWARD

What We Do

We deliver expert-led environmental and ecological management across the UK and in doing so provide an environmental and ecological “safe pair of hands” to ensure compliance with environmental legislation, related standards and best practice. Our wide-ranging services help you manage your environmental and ecological compliance and support you in maintaining your environmental credibility amongst the customers, communities, stakeholders and regulators that you encounter.

An all-encompassing service

Our wide-ranging services provide you with the assurance that all environmental and ecological aspects will be proactively managed throughout your project. These include:

- > UK Habs surveying
- > Preliminary Ecological Appraisals
- > GCN eDNA surveying
- > GCN Mitigation Licences
- > GCN District Level Licencing
- > GCN Low Impact Class Licensing
- > Badger Monitoring
- > Badger Mitigation Licensing
- > Badger GPR Surveying
- > Bat Licensing
- > Otter and Water Vole Surveying
- > Biodiversity Net Gain Ecological Advisor
- > Water Framework Directive
- > Habitat Regulations Assessments
- > Environmental Permitting
- > Environmental Risk Assessments
- > Environmental Management
- > Cultural Heritage Assessments
- > Water Environment Assessments
- > Arboricultural Assessments
- > Tree and Root Protection
- > Noise Assessments
- > Noise Consents
- > Statements of Intent
- > Ordinary Watercourse Consents
- > Scheduled Monument Consents

Our Expertise

We are trusted by our clients to provide fully considered environmental and ecological solutions and pride ourselves on the strength and depth of the relationships we form. We grow, learn and innovate with them and we always ensure that we provide a practical, reliable and responsive service. No client is too big or too small.

The team have over 70 years of combined experience in the environmental sector and 13 years in environmental regulation. The team has the expertise to act as both an environmental service provider and an environmental adviser.

Our Clients

Our Approach

We are agile, acting either on our own initiative or as part of multidisciplinary teams and can find ways of working that achieve environmental compliance whilst keeping projects on track. We are pragmatic in our approach, confident in our knowledge and ability and are responsive to client needs. We challenge the status quo and aspire to redefine what is possible, what makes environmental sense and what good environmental outcomes look like.

Our Accreditations

Work with us to Move Life Forward

Above is a leading infrastructure services and engineering company at the heart of modern Britain designing, maintaining and transforming utility infrastructure. We deliver projects holistically and in doing so have the capability to undertake projects of great technical complexity by leveraging a broad range of services, capabilities and experience to deliver them with a clear focus on client's operational needs and stakeholder requirements.

We work closely with our clients to help protect and improve their assets, enhance customer experience and protect the natural environment. Everything we do is designed to drive continual improvement and provide peace of mind. The peace of mind that is built upon years of successful outcomes, a broad portfolio of related work, industry leading expertise, and a commitment to sustainability and innovation.

We are actively building for the future today, giving our customers the high-quality assets they need to meet their future challenges. We keep clean water flowing through Britain's taps, provide safe sewerage facilities and install infrastructure for Water Companies and housing developers across the UK. We do this efficiently, safely and without fuss, while protecting the environment along the way.
